SUMMARY

Frontend Developer with **2+ years of experience** building and deploying scalable web applications using **React.js** and **Next.js**. Experienced in **SSR**, **REST API integration**, **payment gateway integration**, and **production deployments**. Proven ability to manage **end-to-end frontend development** for multiple live applications.

EXPERIENCE

Hornet Dynamics Pvt. Ltd.

December 2025 – Present

Next.js Developer

Jaipur, Rajasthan

- Implemented end-to-end **Excel export functionality across 10+ modules**, enabling download of complete records, relational data, notes, addresses, and associated business information.
- Engineered advanced reporting capabilities with **15+ filter criteria**, ensuring exported reports accurately matched user-selected search and filtering conditions.
- Streamlined data management workflows by introducing **CSV and Excel bulk import capabilities** across multiple modules, reducing manual data entry efforts by **approximately 70%**.
- Developed and maintained **5+ production applications**, including a customer-facing platform, advertisement portals, and an administrative dashboard.

Extensive Host Pvt. Ltd.

September 2023 – October 2024

React.js Developer

Jaipur, Rajasthan

Cryptocurrency ATM

- Added **transaction filtering** to an **internal dashboard** using **React**, **Ramda**, and **GraphQL**—cut search time from **5 seconds to 0.5 seconds** for **50,000+ records** and **eliminated manual CSV exports**.

Distributed Denial of Service Protection Platform

- Designed and implemented a **React.js** and **Redux Toolkit** frontend with role-based access for four user types (Super Admin, Admin, Organization, Employee), enforcing route-level and component-level permission checks that blocked all 20+ simulated unauthorized access attempts and reduced average task completion time by 30%.

Customer Support Platform

- Migrated three legacy PHP-based portals into a **modern, scalable React.js application** using **Redux Toolkit** and **React Router DOM**, improving page load time by **80%**, enhancing scalability, and reducing maintenance time by **50%**.

Neerja Softwares

February 2023 – July 2023

ReactJS Developer Intern

Jaipur, Rajasthan

- Developed 3+ responsive web projects using **React**, **Bootstrap**, and modern **CSS**, achieving a 35% average improvement in mobile usability scores as measured by **Google PageSpeed Insights**.
- Built responsive, cross-browser-compatible interfaces using **SCSS** and mobile-first principles, ensuring consistent layout and functionality across **Chrome**, **Firefox**, **Safari**, and mobile devices.

PROJECTS

Blogify - Full-Stack Blogging Web Application | [Live](#) | [Source Code](#)

April 2025

- Engineered a secure, serverless full-stack blog using **React**, **TypeScript**, **Hono**, and **PostgreSQL**; added **JWT** authentication and **Zod** validation across 8+ forms and API routes, blocking all 30+ malformed inputs during manual testing.
- Deployed frontend on **Vercel** and backend on **Cloudflare Workers**, achieving 99.8% uptime and API response times under 500 milliseconds under typical load.

TECHNICAL SKILLS
